Officials from the Mansfield Municipal School District in Ohio want to discuss the topic with all students in fifth, sixth and seventh grades. This discussion will be used as a form of anti-bullying training for those who don't already know how to handle these issues. The district's website states that transgender students are "appropriate and welcomed" in the classroom. "From a school district's perspective, it's a highly confusing situation." says Ashlee McCl 648931e174

The first method relates to the extraction of phase-modulated signals, typically, from two-phase flows, wherein the signals are transmitted using the operating principle of a two-phase fluid, and wherein the phase variation time is determined based on the transport of the fluid. The second method is based on the spatial and temporal variability of the backscattered signals, wherein there is no phase variability, and wherein the spatial and temporal variability

of the backscattered signals is determined based on the transport of the two-phase fluid. The method in accordance with the invention may be realized using any type of imaging sensor having at least two channel outputs. One possibility is to use a CCD sensor or a CMOS sensor having a plurality of photosensitive sensors that output signals simultaneously, from which a two-dimensional image may be read, wherein the medium to be measured is present between the imaging sensor and the medium in the container. In an especially preferred embodiment, the fluid is phase-separated by means of an oscillatory mixing element, wherein the
